HORAN Announces New Dayton Office to Accommodate Accelerated Growth

Dayton, Ohio – Today HORAN announced its investment in a new office located in Washington Township. Employees located in the current office space in downtown Dayton will transition to the new office over the next 3 months.

The office space, located at 7475 Paragon Road in Washington Township, receives 78,000 impressions a day from travelers on I-675. The new space will feature technology-enabled conference rooms and stations where teams can work together which supports the innovative and collaborative culture of HORAN. There will also be a dedicated space to host educational and social events for colleagues, clients and partners.

“We are fortunate to have the opportunity to invest in real estate during these times and are excited to relocate our office to Washington Township,” said Cheryl Mueller, CBC, CEBS, president and managing principal for HORAN in the Columbus and Dayton regions. “This new office space better accommodates our team and enables us to hire additional talent to continue to provide industry-leading support and service to our clients. It allows for the future expansion of not only HORAN employee benefits consulting, but also retirement plan consulting and individual wealth management services.”

Over 300,000 individuals depend on HORAN for their health, wealth and life needs, collectively. HORAN is the third-largest employee benefit firm in Dayton and was named a 2020 Healthiest Employer by the *Dayton Business Journal* for the fifth consecutive year. The firm has achieved double-digit growth over the past eight years and grown to 150 employees in its core markets of Cincinnati, Columbus, Dayton and Kentucky.

HORAN’s core values are rooted in corporate social responsibility—the organization supports over 150 non-profit organizations across its core markets.

“There is no better way to celebrate the 10-year anniversary of our Dayton office by investing in the community,” said Mueller. “We remain steadfast in our commitment to the Dayton community. We do this by delivering legendary service to our clients and through our ongoing individual and corporate social responsibility.”
